The Stomach cannot rest

It is a mistake to suppose the stomach can rest and thus recuperate and by this the dyspepsia is cured. The digestive process begins in the mouth and does not end until the food has reached the intestines. The salivary glands in the mouth, the stomach, lower stomach, liver, spleen, etc., take part in the digestive process. This process is going on continuously. Think of resting the heart or the lungs for a few minutes, or any other organ. Pepsin, pancreatin, etc., do not rest the stomach, they digest the residue of food a weak digestive system cannot digest and thus relieve the body of irritating acids or gas. Rydale's Stomach Tablets contain just enough Pepsin and Pancreatin to do this. They also contain many vegetable tonics and stimulants for the digestive tract. Rydale's Stomach Tablets cure dyspepsia the only way it can be cured. Ask us about them. A. L. Cheney, Morrisville; C. P. Jones, Johnson; C. A. Riley, Stowe; E. W. Smith, North Hyde Park; M. J. Homemade Horsepower Pump. The accompanying sketch shows a novel horsepower pump which is used on a northwestern ranch. This pump consists of a walking beam twenty to twenty-five feet long, which is connected at one end to the pump rod and at the other end to the shaft of an old mower wheel. This shaft is lengthened out to about twelve feet and bent into the shape of a crank near the end.

HORSE REQUIRES NO DRIVER.

opposite the wheel. The bearings for this crank are made from a piece of bar iron, V shaped, with a flat bottom. This iron is bolted down loosely to a piece of timber fitted into the ground. The horse is hitched on near the wheel. The V shaped bearing turns as the horse walks around in a circle, and the crank makes a double stroke for every revolution of the mower wheel. Where a well is deep two mowers wheels may be put together to add tractive weight. A horse soon learns to operate this pump without a driver.

Needed Repairs.

"Does your typewriter need repairs?" asked the meandering tinker as he entered the office. "It would seem so," replied the employer. "She has just gone across the street to consult a dentist."
